

**Hrvatsko udruženje slatkovodnih ekologa**

Vas poziva na predavanje pod naslovom:

**GLOBE Program and the connection with NASA satellites**

koje će u srijedu, 30.10. 2019. u 10 h u Vijećnici Biološkog odsjeka PMF-a, Rooseveltov trg 6, održati

**Peter Falcon (NASA)**

u sklopu svog posjeta Hrvatskoj, kao jednoj od najaktivnijih zemalja u GLOBE programu.

Peter Falcon works at NASA's Jet Propulsion Laboratory in Pasadena California USA. He is an Earth Science Education and Communication Specialist. He has worked at NASA/JPL for over 26 years, and supports multiple Earth Observing satellites. He is also a GLOBE Program partner and master trainer in atmosphere. He enjoys traveling, sports and would like to someday grow his hair back. :)

**Presentation overview:**

Peter will give an overview of the GLOBE Program and the connection with NASA satellites. He will also discuss how NASA study's our planet, the sun, the solar system, and Mars exploration. And is looking forward to an informal discuss with students on NASA science and engineering.
